

In regard to use of cellular phones on airplanes: PLEASE DO NOT ALLOW THIS!
I cannot think of any punishment more severe than being caged in an aluminum can with cell phone users.
I would rather have kids in the seats behind me kicking me for the entire flight than to share the cabin with cell users.
Just as smoking was banned due to the detrimental health effects on the other passengers, cell phone usage should be banned due to the detrimental mental health effects on the other passengers.

Thank you,

Wayne Rives
